
Meeting was called to order at 7:00 PM by Jeri Sievert.

1. Unanimously approved the minutes for the October meeting.

2. Public Comment: None

3. Old Business: None

4. New Business:

5. Subcommittee Reports

   • KU Environmental Committee -Todd Underwood (chair)
     o Legionella bacteria have been detected in the water systems of eight buildings on the Kutztown University campus. It is not completely clear what levels are involved, but the university has stated that the detection levels pose minimal risk and water systems have been remediated. No one has become ill from this. Members will wait to see further details from the university.

   • Community Education – (Chair open)
     o No report

   • Air & Water Quality - Jeri Carroll-Sievert (chair)
     o No report.

   • Recycling Program
     o Members discussed items that came up at the Kutztown housing forum meeting. Multiple groups of people requested more trash bins on Main Street, single stream recycling, and yard waste pickup.

   • Parks & Trail - Todd Underwood (chair)
     o White Oak garden update – Garden is doing well and with all the recent rain there has been no need to water. The leftover plants were planted by Patrick Boos and Todd Underwood at North Park. Todd Underwood has receipts for shrubs, sign post, and hand trowels to turn in for reimbursement.

     o North Park - Todd Underwood put tree protector tubes around several trees that were planted in spring. He also planted several native shrubs
in the forested area where the old pool was located. EAC members will maintain bird feeders in the park through the winter and use EAC funds to purchase seed and feeders.

6. Meeting ended at 7:40PM
